

Professional Summary

Aspiring Software Developer with hands-on experience in JavaScript, PHP, Laravel, MySQL, and modern web development technologies. Strong understanding of Programming Fundamentals, Object-Oriented Programming, Data Structures, Algorithms, and Database Management Systems. Experienced in developing full-stack web applications and integrating REST APIs. Possess strong analytical, problem-solving, and communication skills with a proactive attitude toward learning and software development.

Experience

Software Developer Intern

Sep 2025 – Jan 2026 KG Genius Labs, Coimbatore

- Developed and maintained web applications using PHP, Laravel, MySQL, JavaScript, HTML, CSS, Bootstrap, AJAX, and JSON.
- Built CRUD modules for billing, inventory management, customer management, and reporting systems.
- Implemented authentication and role-based authorization systems.
- Designed relational database schemas and optimized SQL queries.
- Integrated REST APIs and handled JSON data exchange.
- Applied Data Structures, OOP concepts, and problem-solving techniques during development.
- Participated in debugging, testing, deployment, and maintenance activities.
- Used Git and GitHub for version control and collaboration.
- Applied MVC Architecture and Object-Oriented Programming principles.

Projects

Egg Shop Billing Inventory Management System

- Technologies: PHP, Laravel, MySQL, JavaScript, jQuery, HTML, CSS, Bootstrap, Git, GitHub.
- Developed a full-stack web application to automate billing, inventory, employee management, and reporting operations.
- Implemented secure role-based authentication and authorization.
- Developed Billing, Inventory, Customer, Employee, and Sales Tracking modules.
- Created invoice generation with automatic stock updates.
- Implemented Daily, Monthly, and Yearly reporting dashboards.
- Optimized database design and SQL query performance.
- Implemented input validation and secure authentication practices.
- Applied MVC Architecture, OOP principles, CRUD operations, and Laravel best practices.
- Utilized JavaScript and jQuery for dynamic UI interactions.
- Live Demo: eggshop.onrender.com
- GitHub: github.com/Gokulk8870/eggshop

Notes Management Application

- Technologies: HTML5, CSS3, JavaScript, Local Storage, Git, GitHub.
- Developed a responsive Notes Management web application for creating, updating, and deleting notes.
- Implemented CRUD operations using JavaScript and browser Local Storage.
- Designed a clean and user-friendly interface with modal-based note creation.
- Implemented dynamic rendering and real-time UI updates.
- Applied DOM Manipulation, Event Handling, and ES6 JavaScript concepts.
- Strengthened understanding of frontend application development and client-side storage.
- Live Demo: gokulnotes.netlify.app

GitHub Activity Tracker

- Technologies: JavaScript, Node.js, GitHub REST API, JSON, Git.
- Developed a command-line application that fetches GitHub user activity using the GitHub API.
- Implemented asynchronous programming using Async/Await and Fetch API.
- Processed JSON responses and displayed Push, Create, and Pull Request events.
- Added input validation and error handling.
- Strengthened understanding of API integration, asynchronous JavaScript, and JSON processing.
- GitHub: github.com/Gokulk8870/github-activity

Technical Skills

Programming Languages	JavaScript, PHP, Java, C, C
HTML5, CSS3, Bootstrap, jQuery	Frontend
Backend	Laravel, REST APIs, MVC Architecture
MySQL, SQL	Database
Core Concepts	Data Structures, Algorithms, OOP, DBMS, SDLC
	Security
Basic Web Security Concepts, OWASP Awareness	Git, GitHub
Version Control	Tools
VS Code, Postman, XAMPP, Laragon	Problem Solving, Communication, Team Collaboration, Adaptability, Quick Learning
Soft Skills	

Education

Master of Computer Applications (MCA)	2026 Your College Name
B.Sc Computer Science	2024 Gobi Arts and Science College CGPA: 7.8

Relevant Coursework

- Data Structures and Algorithms
- Object-Oriented Programming
- Database Management Systems
- Software Engineering
- Web Technologies
- Computer Networks

Achievements

- Developed and deployed a full-stack Billing and Inventory Management System using Laravel.
- Built and deployed a Notes Management Application using JavaScript and Local Storage.
- Developed a GitHub Activity Tracker using GitHub REST API and Node.js.
- Hands-on experience with REST APIs, Database Design, Git, GitHub, and Modern Web Development.
