PROFESSIONAL SUMMARY

Motivated Computer Science graduate pursuing MCA, skilled in software development, web applications, testing, documentation, and user training. Strong problem-solving ability with experience in AI-driven systems, billing automation, database integration, and secure server-side logic. Adaptable team player eager to contribute in development, support, testing, or training roles.

EDUCATION

MCA, KGiSL Institute of Information Management — CGPA: 8.2 (First 2 Sem), 2026 (Expected)

B.Sc (Computer Science), Gobi Arts and Science College — CGPA: 7.8 (2021–2024)

TECHNICAL SKILLS

Programming:	C, Java, Python
Web Technologies:	HTML, CSS, PHP (Core & Laravel), Flask
Databases:	MySQL
Frameworks/Tools:	Laravel, VS Code, XAMPP, Eclipse, VB.net, Turbo C, GitHub
Platform Knowledge:	Windows, Localhost deployment
Microsoft Tools:	MS Excel, MS Word
Other Skills:	Documentation, presentation, logical debugging, API integration

SOFT SKILLS

Communication, teamwork, adaptability, time management, analytical thinking, mentoring, client interaction.

EXPERIENCE

Software Development Intern (PHP Laravel + MySQL)

KG Gensys Lab — 3 Months, 2025

- Designed and developed a client-specific Billing Management System using Laravel, MySQL, HTML, CSS, and Blade templates.
- Built secure authentication, routing, authorization, form validation, and database migration workflows based on MVC principles.
- Implemented core modules including customer records, invoice generation, reporting, and transaction management.
- Conducted requirement analysis, testing, debugging, deployment, and user training—significantly reducing manual billing effort.
- Worked with Git-based version control for updates and project tracking.

ACADEMIC PROJECT

SQLMate – AI-Based Natural Language to SQL System (Flask, Groq, MySQL)

- Built an AI-powered web application converting English sentences into SQL queries using Groq API and LLaMA models.
- Implemented Role-Based Access Control (User/Manager/Admin) ensuring secure SQL execution workflows and approval logging.
- Delivered password hashing, SQL injection prevention, session handling, and token-based password resets for high reliability.
- Performed structured testing with PyTest, Bandit, and Safety to verify security and robustness.

CERTIFICATIONS & COURSES

Java (SimpliLearn), Python (Pantech Solutions), Full Stack Foundations (Coursera)

EXTRACURRICULAR ACTIVITIES

- Volunteered in community service, digital literacy and awareness activities.
- Conducted hands-on computer training for school students.

DECLARATION

I hereby declare that the information provided is true to the best of my knowledge and belief.
